-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

The information disclosure statement filed 25 April 2005 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered.

There is no copy of the Non-Patent literature cited on sheet 2 of the IDS.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 19 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wang in view of Lin.

There is disclosed in Wang a horizontal spit rotisserie oven, comprising: a cabinet having a plurality of side walls; a spit assembly 25; a control box 6 which contains a heating device (hot-air blower) and activation switches (col. 4, lines 27-31), wherein the control box is separate from and removable from the cabinet; an access door 8 having a single panel window 3; and a food warming tray 24.

Lin discloses a rotisserie device having a control box 7 which is manually removable from a housing by way of a thumbscrew (manual latch) 716 and housing support ledge 35.

It would have been obvious to one skilled in the art to provide the device of Wang with the control box mounting means taught in Lin, in order to allow easy and fast removal of the control box without the use of tools.

Allowable Subject Matter

Claims 1-17 and 21-32 are allowed.

Response to Arguments

Applicant's arguments with respect to claim 19 have been considered but are moot in view of the new ground(s) of rejection.

The subject matter of claim 19, while considered allowable subject matter in the prior office action, is met by the prior art of Wang and Lin. Wang discloses the use of an access door on an enclosure. The reference to allowable subject matter was made in error in the prior office action.
